Emily

+8613380389728/info@yanhesheng.com

These projects are from all the successful projects from 2012 to 2022. We select some projects as examples to show and achieve results.

The materials selected for the projects shown in the case are all DuPont, CORIAN artificial stone, Korea LG Haomisi HI - MACS artificial stone and Chinese brand acrylic artificial stone; Wood cabinets use plywood E0 standard bunny brand. Artificial stone glue and white latex, fireproof board using Fumeijia, slide rail hardware accessories using Blum brand.

We provide examples of the technology embodied in: deepening design, fine engraving, mold forming, hot bending, surface

Connection, seamless splicing, polishing and so on.

04 Artificial stone surface is widely used, not limited to this
Some projects, and we'll add more exciting projects,

Stay tuned.
